

BPC 2024 Stable Entry Protocols & Best Practices

Trainer FAQs:

What to do BEFORE Shipping to Belterra Park?

- MONITOR/LOG TEMPERATURES on all horses for 5 days prior to shipping
- Each Trainer is required to submit a list of ALL RACEHORSES in your care and indicate the Farm or Training Center location for each horse.

What will my horse need to ENTER Belterra Park Stable Area?

- Health Certificate issued within 5 days (interstate and intrastate)
- Negative Strangles PCR within 5 days of entry (**Horses coming from Ohio & WV ONLY**)
- Negative Coggins (EIA) Certificate within 12 months
- Verification of Influenza and Rhinopneumonitis vaccinations within 14 to 180 days.
- Verification of EEE/WEE/WNV (encephalitides), rabies, and tetanus vaccination within the prior 12 months. *Vaccination dates must be listed on Health Certificate.*
- In-Bound Horse Declaration Form (signed by trainer)

If any of the above items are missing; your trailer will be denied entry into Stable Area

What do I need to know about the STABLE GATE?

- Horses may only ship-in between the hours of 6:00a-6:00p. All horses attempting to enter the barn area after hours will be denied.
- Once on property, movement of horses should be limited and/or restricted. Once your horse arrives, it is advised to limit shipping in and out whenever possible.
- **Work & Go horses are prohibited until further notice**

What do I do AFTER my horses arrive at Belterra Park?

- Go DIRECTLY to your ASSIGNED STALLS and unload all horses
- Daily OBSERVATION of horses for clinical signs of sickness
 - Off Feed or Water
 - Nasal Discharge
 - Swollen Lymph Nodes
 - Fever (101.5 or above)

What do I do if I SUSPECT my horse is sick?

- Immediately REPORT all details to the **Regulatory Vet** and await further instructions
- If possible, ISOLATE sick horse from all other non-suspect horses and keep it far away from other horses.
- Sick horses SHOULD NOT be moved off of property until notice has been made to the **Regulatory Vet**.
 - Once the horse leaves property, it will not be allowed back into Stable Area until further notice

Failure to cooperate with these above Protocols may result in loss of stabling and/or entry privileges.

Follow these BEST PRACTICES until further notice:

Limit movement of horses

- Once shipped in, please try to restrict shipping horses out to the farm unless necessary
- Notify the STALL SUPER of intentions to move horses off of property (racing or to farm)
- Keep horses in their designated stalls/walking areas
- Do not hotwalk horses in other barns or shedrows
- Grazing/grassing of horses is discouraged

Daily Temperature logs of horses

- It is encouraged that all horses have their temperatures taken twice daily
- A temperature log has been provided with this document
- Please report any findings over 101.5 to the **Regulatory Vet** right away

Sanitize all Tack, Equipment, and Tools shared between horses

- Lead shanks
- Halters
- Bridles/Bits
- Pads
- Saddles
- Yokes
- Bandages
- Brushes
- Pitchforks/Wheelbarrows

Sanitize all Feeding / Watering receptacles

- Water buckets
- Feed tubs
- Feed bins or boxes
- Feed scoops/buckets
- Hoses

Human to Horse contact recommendations

- Wash hands inbetween horses
- Use disposable gloves and discard after each horse
- Encourage all exercise riders, grooms, hotwalkers, farriers, and pony riders to do the same

This is only meant to serve as a basic guideline , and we encourage you to be proactive in ensuring the health and wellbeing of your horses.
